

Victory Keys to Safety

" Maintaining the Trained and Defensive Driver "

MANDATORY TRAINING

SUSTAINMENT TRAINING (for drivers with OF 346s)

- Cdrs will develop and implement an annual training program to maintain the highest level of driver's proficiency and prevent drivers from developing bad habits.
- Supervisors are required to conduct annual check rides to assess each driver's proficiency and identify weaknesses.

- Focus sustainment training on driver's weaknesses as well as other command identified topics (e.g., winter driving conditions, defensive driving, mission related driving, etc.,)

REMEDIAL TRAINING

- Commanders will establish remedial training programs for drivers or operators who have had at-fault accidents or traffic violations, misused equipment, or otherwise demonstrated a need for additional training.

TRAINING RESOURCES

- TC 21-305 Series
- FM 21-305 Manual for the Wheeled Vehicle Driver
